Calumma™ series by Anolis®

Anolis designs and manufactures the highest quality LED architectural lighting. All products are designed in our state-of-the-art R&D facility by industry experts. Our fixtures are extensively tested to ensure they perform perfectly in the environment for which they were designed. Utilisation of the latest LED technology ensures low power consumption and long lumen maintenance intervals.

Introduction

Lava Tunnel, Iceland

Calumma™ series

Brand new in every dimension

Collection of extraordinary projectors that meet diverse needs of architectural lighting with style. Calumma luminaires come in five sizes, single-chip and multi-chip variants, various colour specifications, loads of beam angles, different control options and colour finishes.

Design

Developed with attention to aesthetics and performance in architectural lighting, these LED luminaires are compact and elegant with innovative design characteristics. Its IP67 and IK10-rated housing, along with its cutting-edge optical technology and harsh environment coating options, make the Calumma series an ideal solution for any exterior architectural lighting project.

Optical Performance Calumma MC

A wide variety of optical options are one of the key advantages of the Calumma series. Available with a broad palette of colour variants and beam spreads, the high-power LED optics are precisely calibrated for quality and perfectly homogenised light output with a lifetime over 90.000 hrs. Calumma MC is a luminaire that can be used for a variety of architectural lighting scenarios including the application of dynamic colour changing effects to building exteriors and façades.

Optical Performance Calumma SC

A wide variety of optical options are one of the key advantages of the Calumma series. Single-chip models are equipped with specially designed integrated honeycomb louvers which eliminate light-spills and passive light, resulting in a higher quality output without any undesirable effects. Calumma SC is a luminaire that can be used for long throw applications.

Full White Control

Using the latest technology standards to facilitate remarkable colour mixing capabilities, a dedicated \pm green control channel in the Calumma series allows designers to make the most precise adjustments of green content in order to reach an exact white temperature. With \pm green control, it's possible to achieve almost all shades of white when illuminating surfaces of various colours, providing far greater control flexibility in challenging lighting applications.

Streets lit with stars

Designed to keep the sky dark, Calumma street light luminaires are specifically developed to eliminate light pollution while illuminating pavements and public realm spaces with side-throw models, and front-throw beam spread models for other areas. The pole mounting bracket is designed to be minimalistic, unobtrusive and functional with a smooth mounting system and internal cable openings. Calumma luminaires are also equipped with Colour temperature correction that allows you to define various white temperatures.

Connectivity

From retrofitting to new installation, Calumma luminaires offer various types of connections for any application through wired DMX/RDM, DALI 2 DT8, or wireless DMX protocols. E-box connections are also available for in/out daisy-chaining of luminaires, and simple On/Off control is available for PW models.

Calumma™ XS MC

Using a single high-power, multi-chip LED inside a compact, elegant, and durable housing, the smallest Calumma is a great choice for many different lighting applications. Complementing both outdoor environments and interior designs, its wide range of beam angles, LED chip colour variant options and accessories make the Calumma XS MC an ideal, extra small lighting solution for any architectural design.

Scale

Lumen Output & Light Source

Luminaire with one high-power, multi-chip LED provides light output up to 415 lumens with an efficacy of 67 lm/W (RGBW, White LEDs only). Offering a choice of multiple LED colour variants, precise beam control with no light spill, and perfectly homogenised light output, it's an excellent solution for applications requiring high performance in a compact luminaire.

Design & Durability

Lightweight, compact, durable and stylish housing made of high-pressure die cast aluminium. IP67 and IK10 certification; suitable for marine and traffic applications. Supported with a 5 year warranty.

Flexibility

An exceptionally compact luminaire available with a wide range of accessories, custom colour finishes, LED choices, and beam angle options, Calumma XS offers the lighting designer a flexible solution for the most demanding applications.

Standards and Certifications

Calumma™ S MC

Featuring an optical design using three high efficacy multi-chip LEDs and available with optional LED colour variants and various beam angles, the medium-sized Calumma S MC luminaire creates powerful and beautiful light output for a spot, accent or flood lighting solution. Its durable housing is built to withstand any exterior conditions, and its special finish for harsh and marine environments provides an exceptional outdoor LED luminaire in an elegant design. Complemented by a wide range of accessories, control protocols and connection options, this luminaire is an effective and versatile unit to get the most out of architectural lighting applications.

Scale

Lumen Output & Light Source

Luminaire with three high-power, multi-chip LEDs provides up to 1245 lumen output. Multiple LED colour variants. No light spills. Perfectly homogenised light output with efficacy up to 67 lm/W (RGBW, White LEDs only).

Design & Durability

Compact, durable and stylish housing made of high-pressure die cast aluminium. IP67 and IK10 certification; suitable for marine and traffic applications. Supported with a 5 year warranty.

Flexibility

Exceptional outdoor or indoor LED luminaire with a wide range of accessories, custom colour finishes, multiple light output variants and beam angles.

Connectivity

Calumma S MC can be connected via an E-Box for almost effortless installation. DMX512+RDM and wide range of Ethernet protocols are available for E-Box control. DMX/RDM or DALI 2 interface protocols facilitate standard connection options.

Calumma™ M MC

Featuring an optical design using 7 high efficacy multi-chip LEDs and available with optional LED colour variants and various beam angles, the medium-sized Calumma M MC luminaire creates powerful and beautiful light output for a spot, accent or flood lighting solution. Its durable housing is built to withstand any exterior conditions, and its special finish for harsh and marine environments provides an exceptional outdoor LED luminaire in an elegant design. Additionally, Calumma M MC can be connected in long In/Out daisy chains via an E-Box and hybrid Plug & Play connections for almost effortless installation. Complemented by a wide range of accessories and control protocols, this luminaire is an effective and versatile unit to get the most out of architectural lighting applications.

Scale

Lumen Output & Light Source

Luminaire with seven high-power, multi-chip LEDs provides up to 2906 lumen output. Multiple LED colour variants. No light spills. Perfectly homogenised light output with efficacy up to 67 lm/W (RGBW, White LEDs only).

Design & Durability

Compact, durable and stylish housing made of high-pressure die cast aluminium. IP67 and IK10 certification; suitable for marine and traffic applications. Supported with a 5 year warranty.

Flexibility

Exceptional outdoor or indoor LED luminaire with a wide range of accessories, custom colour finishes, multiple light output variants and beam angles.

Connectivity

Utilising the innovative E-Box series of power and data interfaces, Calumma M MC can communicate via numerous wired, wireless, and Ethernet-based control protocols. Various wiring topologies are supported using hybrid power / data cables with Plug & Play connectors or standard connection options.

Calumma™ L MC

Featuring an optical design using twelve high efficacy multi-chip LEDs and available with optional LED colour variants and various beam angles, the large-sized Calumma L MC luminaire creates powerful and beautiful light output for a spot, accent or flood lighting solution. Its durable housing is built to withstand any exterior conditions, and its special finish for harsh and marine environments provides an exceptional outdoor LED luminaire in an elegant design. Additionally, Calumma L MC can be connected in long In/Out daisy chains via an E-Box and hybrid Plug & Play connections for almost effortless installation. Complemented by a wide range of accessories and control protocols, this luminaire is an effective and versatile unit to get the most out of architectural lighting applications.

Scale

Lumen Output & Light Source

Luminaire with twelve high-power, multi-chip LEDs provides up to 4983 lumen output. Multiple LED colour variants. No light spills. Perfectly homogenised light output with efficacy up to 67 lm/W (RGBW, White LEDs only).

Design & Durability

Compact, durable and stylish housing made of high-pressure die cast aluminium. IP67 and IK10 certification; suitable for marine and traffic applications. Supported with a 5 year warranty.
